💼 JOB EXPERIENCE

Strategy First International College ↗
03/2024 – present

- **SFUx Learning App**: Built a Flutter-based learning app with BLoC architecture, integrating social media logins, interactive quizzes, and automated certificates. Oversaw end-to-end development, including UI/UX, security, and testing.
- **StrategyFirst Learn App**: Developed a cross-platform app for university students with features like digital IDs, class schedules, newsfeeds, reels, and a campus wallet.
- **Waso Learn KG-12**: Created an educational app for KG-12 students with interactive modules, seamless navigation, and real-time updates for iOS and Android.
- **Waso Lite**: Designed a lightweight version of Waso Learn KG-12 optimized for low-RAM devices, ensuring efficient performance while retaining essential features.
- **Putet Comics 2.0**: Developed a digital comics app focused on smooth navigation and an enhanced user experience for comic readers.

Xlance Collective ↗
09/2023 – 02/2024

- Created innovative apps, including a dating app and a Wordle game, with a focus on user engagement and seamless functionality.
- Delivered high-quality applications using Flutter while adhering to deadlines in collaboration with cross-functional teams.
- Adapted to changing requirements, consistently exceeding expectations in delivering engaging user experiences.

Tee Htwin ↗
05/2023 – 10/2023 | Yangon, Myanmar (Burma)

- Collaborated with a volunteer team to design and build an app for art enthusiasts to buy, sell, bid on artworks, and explore exhibitions.
- Focused on creating a user-friendly interface that fosters community interaction, supports seamless transactions, and improves accessibility to art.
